Activity 4.
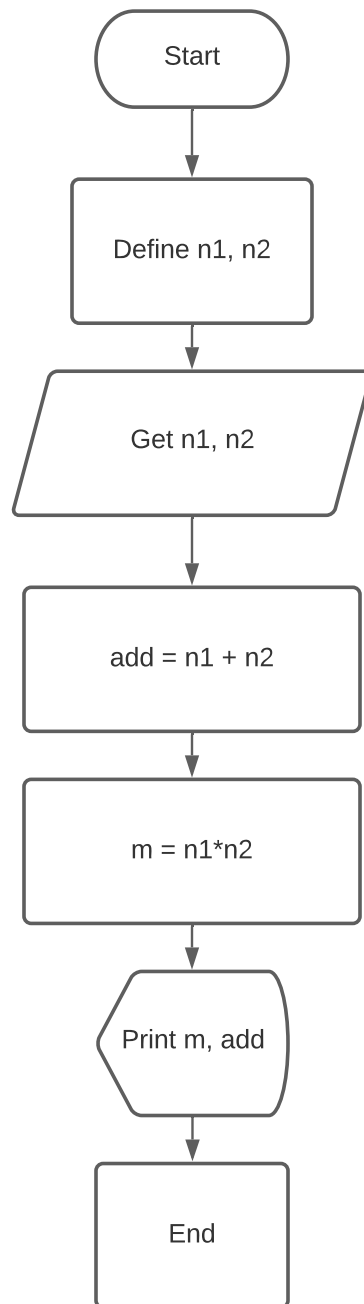

Draw a flowchart and write its pseudocode that adds/multiplies two numbers given by the user.

```
Start
  │
  ▼
Define n1, n2
  │
  ▼
Get n1, n2
  │
  ▼
add = n1 + n2
  │
  ▼
m = n1*n2
  │
  ▼
Print m, add
  │
  ▼
End
```

Start program: Adds/multiplies two numbers

```
    DEFINE
        n1, n2, result_add, result_m
    PRINT ("Enter n1 and n2")
    GET n1, n2
    result_add = n1 + n2
    result_m = n1*n2
    PRINT ("This is the result:", result_add)
    PRINT ("This is the result:", result_m)

End program
```
